The above-listed Japanese Patent Publication Nos. 05-284437, 07-288759, and 09-037172 and PCT Publication WO 99/04561 were cited in an April 11, 2004 Official Action

issued by the Japanese Patent Office in connection with a Japanese counterpart application of the this U.S. patent application. The copies of these Japanese Patent Publications transmitted herewith are not written in English. No complete English translation of these publications is possessed by or is readily available to the applicant. However, pursuant to 37 C.F.R. § 1.98(a)(3)(i), applicant encloses herewith an English translation of the April 11, 2004 Japanese Official Action which sets forth the alleged relevance of these publications (See MPEP § 609(III)(A)(3)). Applicant also encloses for the Examiner's convenience: (1) a copy of the pending independent claim of the counterpart Japanese application; and (2) English translations of the abstracts of these publications.

Applicant reserves the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.
